Preface

Nature's **Materia Medica**

Preface to the Third Edition

Nature's Materia Medica is the third edition of the Homeopathic Remedy Guide which was first published in August of" 1995. The third editon of *the **Nature's Materia Medica*** was designed to be a complete rewrite and major upgrade of the ***Homeopathic Remedy Guide,*** *second edition*. My attempt has always been to create a new and easy-to-use materia medica for homeopaths to use in daily practice, while still remaining accessible for use at home and in the classroom.

The changes made in this 3rd edition comprise my attempts to build on that philosophy. *Nature's Materia Medica* contains hundreds of new remedies and thousands of new updates and additions.

The Nature's Materia Medica, third edition was updated to be a more clinical, practical and easy-to-use reference guide to the vast homeopathic materia medica. After editing the *second edition,* 1 continued to add more modern terminology, cross references and corrected any errors that were found. The final step was to systematically survey the homeopathic and herbal literature for reliable additions and updates. The highest priority was to find more clinical information revelant to modern homeopathic, naturopathic and herbal practice.

The writings of Allen, Anshutz, Boericke, Burnett, Clarke, Cooper, Hale, Hahnemann, Hering, Julian, Paracelsus, Phatak and Radamacher formed the some of the major resources from which the remedy monographs were compiled, formatted and updated. Each remedy is reviewed as to it's pharmacy, folklore, historical uses, keynotes, generals, provings, case histories and toxicological reports.

Also, traditional herbal lore and information from the ancient medicine was consulted, especially on the use of herbal and spagyric tinctures as therapeutic agents and general tonics.

The result is the *third edition* of *Nature's Materia Medica,* which contains more modern terminology and diseases. Over 200 new remedies, and thousands of new additions and updates, all in a small lightweight book for convenient use. Nature's Materia Medica has been redesigned to better complement the Homeopathic Clinical Repertory also written by Robin Murphy, ND.

Similar abbreviations and terminologies were used for both books and the alphabetical schema used in the remedy monographs was designed to relate to the chapters in the Homeopathic Clinical Repertory. The *third edition of Nature's Materia Medica* has been rewritten over the past few years and the following major changes were made:

Changes to the Third Edition

(1) New Name - The Homeopathic Remedy Guide has been renamed as "Nature's Materia Medica: 1,400 Homeopathic and Herbal Remedies" This new name was given to better represent the actual content and purpose of the book, to be a modern reference guide to the many Homeopathic and Herbal materia medicas.

(2) New Format - Nature's Materia Medica has been completely re-formated. The single column plan is replaced with a two column format. This was done to make the book easier to read and to make more space available for adding new remedies to the book.

(3) New Editing - Thousands of minor and major corrections have been made in the third edition of this book. Errors in spelling, grammar and formating have been corrected. Also the sentence and paragraph structure was updated and improved.

(4) New Updates - New cross references with more updated and expanded clinical infor mation added to many remedy monographs. * New Remedies and Updates - New Remedies added from modern provings. Also additions from Allen, Boericke, Boenninghausen, Burnett, Clarke, Grimmer, Hahnemann, Hering, Julian, Kent, Knerr, Kunzli, Nash, Phatak and many more.

Preface

Changes to the Third Edition

(5) **Updated Remedy Abbreviations** - The remedy abbreviations of this edition have been updated to match the abreviations in the Homeopathic Clinical Repertory.

(6) New **Remedy Gradings** - The new remedy gradings for the *Nature's Materia Medico, 's Repertory* display the strongest remedies in the following manner: **CALC..** (4 points), bold-capitals and underlined. **CALC.,** (3 points), and, **bold-capitals-type, *calc.,*** (2 points) and bold-italics-type, calc., (1 point), and plain-small-type.

(7) New **Remedies** - Over 200 new remedies were added to this edition. Many new ho meopathic provings, herbal remedies, etc were added in this edition.

(8) New **Repertory** - A new clinical repertory has been added to the back of the book.

(9) **New Remedy Index** - This expanded list includes the full latin names and common names for many homeopathic and herbal remedies.

(10) New **Homeopathic-Herbal Glossary** - A new glossary of Homeopathic, medical and herbal terminology has been added to this edition.

(11) New **Homeopathy-Herbal Directory** - Homeopathic and Herbal Resources. Alistings of Homeopathic and herbal schools, organizations, pharmacies, bookstores, etc.

Abbreviations: The abbreviations used in this book are:

agg. - aggravated by, worse from or symptoms increased **by.**

amel. = ameliorated by, better from or symptoms decreased by. N.

O. = Natural order.

The response to previous editions *Nature's Materia Medico,* has been very positive throughout the past 12 years. This demonstrates the need that has existed for many years for a modern materia medica of homeopathic and herbal remedies.

1 profoundly thank everyone who has supported this work and 1 hope this third edition of *Nature's Materia Medica* will be helpful in the study and practice of homeopathic and herbal medicine, worldwide. 1 welcome any suggestions for corrections and improvements that can be put into any future editions of this work.

Robin Murphy, N.D. November
9, 2006 Blacksburg, Virginia,
U.S.A.

Introduction

Nature's Materia Medica: 1,400 Homeopathic and Herbal Remedies

The word'materiamedica'originates from the Latin word of 'mater' which means materials and 'medica' which refers to their use in medicine, therefore a materia medica translates as a Book of Medicines. The first Homeopathic Materia Medica was created by Hahnemann which he called the Materia Medica Pura, which translates as the Book of Pure Medicines. Homeopathic remedies were pure because their true medicinal actions were determined via provings not from theories or speculations. These energy medicines were also 'purified' . of their earthy matter by the homeopathic method of potentizing substances via dilutions, triturations and succussions.

Nature's Materia Medica is a Book of Natural Medicines, because the homeopathic and herbal remedies have an affect on health and disease by enhancing the vital state of a person. Once the constitutional vitality is increased the healing forces become activated and health can be restored and fortified. This book contains over 1,400 of these Natural Medicines from the homeopathic and herbal materia medicas.

The writings of Allen, Anshutz, Boericke, Burnett, Clarke, Cooper, Hale, Hahnemann, Hering, Julian, Paracelsus, Phatak and Radamacher formed the major resources from which the remedy monographs were compiled, formatted and updated. Each remedy is reviewed as to it's pharmacy, historical uses, keynotes, generals, provings, case histories and toxicological reports. Also, traditional herbal folklore and information from the ancient medicine was consulted, especially on the use of herbal and spagyric tinctures as therapeutic agents and general tonics.

Nature's Materia Medica: Book Outline

1. Preface - Acknowledgements and publication information. Updated information about this edtion.
2. Introduction - Outline of Remedy Monographs. Homeopathic and Herbal prescribing.
3. **Table of Contents** - Outline of Book. Remedies **Lists.**
4. Nature's **Materia Medica** - Homeopathic and Herbai Monographs A to Z.
5. Nature's **Repertory** - Clinical Index. Remedy Groups.
6. Remedy Index - Common and Latin Names, Synonyms.
7. Remedy **References** - Homeopathic and Herbal References.
8. Homeopathic-Herbal **Glossary** - Homeopathic and Herbal Terminology.
9. Homeopathic-Herbal **Directory** - Homeopathic and Herbal Resources. Homeopathic Schools. Bookstores, Publishers, Pharmacies, Organizations, etc.

Outline of Remedy Monographs

Title - The standard latin botanical or chemical name, Sub-title - the common name or the remedy's traditional name.

Pharmacy - The remedy's abbreviation is found as it is written in the Homeopathic Clinical Repertory. The remedy's Latin and common names are given. The abbreviation N. O., stands for Natural Order or botanical family of the plant. Geographic location. How the remedy is prepared, by tincture or trituration. What parts are used to make the remedy. *Historical doses:* This section reviews the doses that have been used of the particular remedy, in a tincture, triluration or potencies. All remedies can be used in potency, but only the non toxic plants should be used for the spagyric and herbal tinctures. Remedies with possible spagyric or herbal uses are marked in the table of contents by underlining the remedy's Latin Name.

Clinical - In the clinical section is an alphabetical list of disorders and conditions that the remedy has helped in the past and present. The disorders in *italic type* are known to have been historically cured by the remedy.

Table of Contents
