## PREFACE

This short repertory contains 58 Indian Drugs. It has been prepared with the help of "Drugs of Hindoosthan" by Dr. S.C. Ghose and Boericke's Materia Medica. Of the 58 drugs included in this repertory 15 are included in the Materia Medica and Repertory of Boericke.

This separate repertory to the Indian Drugs will be able to give a boost to the homoeopathic application of Indian Drugs. A thorough proving and verification of all important Indian Drugs should be done so that the medicinal value hidden in Indian plants and animals is revealed for the benefit of humanity. This short repertory is only a step in that direction.

Although this work is small, yet it will be of help to practising physicians and students. Many common ailments can be treated with the help of only 40 medicines marked by asterisk. This small work is only a part of the goal which has to be attained. It is for the keen homoeopaths and research scholars to attain the total goal.
