- Aggravation after eating.

**Q.2. Describe the respiratory symptoms of *Abies nigra*?**

**ANS. Respiratory Symptoms: —**

*Abrotanum*

- Dyspnoea with painful sensation as if something were lodged in the chest and had to be coughed up.
- Sensation of compression in lungs.
- Lungs cannot be fully expanded.
- Dyspnoea, worse lying down.

## **ABROTANUM**

### **Q. 1. Describe the Abrotanum child?**

**or**

#### **Describe Abrotanum in Marasmus?**

**ANS. Child:** The Abrotanum child is emaciated with a flabby, dehydrated, wrinkled skin which hangs in folds. Emaciation starts from lower limbs and gradually spreads upwards. Head is weak, cannot hold it up.

Excessive appetite; losing flesh while eating well. Hungry all the time. Tendency to recurring attacks of diarrhoea, usually alternating with rheumatic pains.

**Mind:** Child has incapacity to think, but is extremely irritable, peevish, cross, violent and would like to do something cruel.

Abrotanum child is always worse from cold air, cold damp weather, at night and from checked secretions but always feels better when having loose stools.

### **Q.2 Write down the characteristic symptoms of Abrotanum?**

**ANS. Characteristic Symptoms: —**

1. Marasmus, especially of lower extremities which spreads upwards. Losing flesh while eating well.
2. Rheumatism, with excessive pain before the swelling

commences, from suddenly checked diarrhoea or other secretions.

3. Rheumatism alternating with piles.
4. Great weakness, prostration and a kind of hectic fever with children.

Modalities: *Aggravation* — From cold air, cold damp weather, at night and from checked secretions.

*Amelioration*—When having loose stool.

Q.3. Describe the Cardiac Symptoms of Abrotanum?

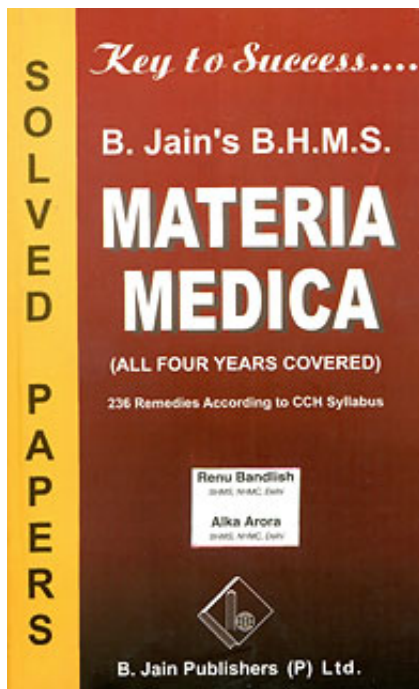

ANS. Cardiac Symptoms: *Cardiac symptoms following a suddenly checked rheumatism of any joint.* It is a good remedy for endocarditis and rheumatic heart diseases. There is cutting and stitching pain in heart. Cardiac symptoms from suddenly checked secretion.

### **ACALYPHA INDICA**

Q. Describe the respiratory symptoms of *Acalypha indica*?

ANS. Respiratory Symptoms: —

- *Acalypha* is very useful in haemoptysis of phthises,
- There is dullness of chest on percussion.
- Severe pain in chest, progressive emaciation, night sweat, evening rise of temperature.
- *Dry, hard, cough* with *haemoptysis*.
- Blood bright red and profuse in the morning; dark red clotted in afternoon. .
- Soft and compressible pulse.
- Burning sensation in pharynx, oesophagus and stomach.
- Patient is very weak in the morning, gains strength during the day.
