## PREFACE

For quite sometime, the thought of Adverse Reactions of Allopathic drugs was coming to my mind when allopathic patients come to the aid of homoeopathic treatment. Therefore, the medical profession has been facing the problem of side effects and ill-effects of allopathic drugs, which affects the natural defence mechanism of the body. Moreover, these sometimes mask symptoms and thereby hide internal calamities in the body. The allopathic profession is quite aware of all these and of course they do not divulge the facts to their patients and consequently patients are left to suffer these adverse reactions.

Therefore, to create awareness of the Adverse Reactions of Allopathic Drugs among homoeopathic practitioners as well as patients, this little book has been written to impress upon the patients that the homoeopathic treatment is the best, **safest** and most effective in the hands of qualified homoeopathic doctors.

In a nut-shell, I would like to mention below the adverse reactions of some of the allopathic drugs:
