TWO CASES FROM HAHNEMANN'S NOTEBOOK

CASE-1

Julie M., a country girl; fourteen years old; not yet menstruated

12 September 1842. A month previously she had slept in the sun. Four days after this sleeping in the sun, the frightful idea took possession of her that she saw a wolf, and six days thereafter she felt as if she had received a great blow on the head. She now spoke irrationally, became as if mad; wept much; had sometimes difficulty in breathing; spat white mucus; could not tell any of her sensations.

She got *Belladonna*- weakened dynamization, in seven tablespoonfuls of water; of this, after it was shaken, a tablespoonful in a glass of water, and after stirring this, one teaspoonful to be taken in the morning.

LM Potency

Sixteenth September - Somewhat quieter; she can blow her nose, which she was unable to do during her madness; she still talks as much nonsense, but does not make so many grimaces while talking. She wept much last night. Good motion. Tolerable sleep. She is still very restless, but was more so before the Belladonna. The white of the eye full of red vessels. She seems to have a pain in the nape of the neck.

From the glass in which one tablespoonful was stirred, one teaspoonful is to be taken and stirred in a second glassful of water, and of this from two to four teaspoonfuls (increasing the dose daily by one teaspoonful) are to be taken in the morning.

Twentieth - Much better; speaks more rationally; works a little, recognizes and names me: and wished to kiss a lady present. She now begins to show her amorous propensities; is easily put in a passion and takes things in bad part; sleeps well; weeps very often; becomes angry about a trifle; eats more than usual; when she comes to her senses she likes to play, but only just as a little child would.

Belladonna: A globule of a higher potency; seven tablespoonfuls shaken in two glasses, 6 teaspoonfuls from the second glass early in the morning.

LM Potency

Twenty Eighth - On the 22nd, 23rd and 24th very much excited day and night; great lasciviousness in her action and words; she pulls up her clothes and seeks to touch the genitals of others; she readily gets into a rage and beats every one.

#

Hyoscyamus X^o: Seven tablespoonfuls, & c., one tablespoonful in one tumblerful of water; in the morning a teaspoonful.

Fifth October - For five days she would eat nothing; complains of bellyache; for the last few days less malicious and less lascivious; stools rather loose; itching all over the body, especially on her genitals; sleep good.

Sacch. Lactis: For seven days, in seven tablespoonfuls, & c.

Tenth - On the 7th, fit of excessive anger; she sought to strike every one. The next day, the 8th, attacks of fright and fear, almost like the commencement of her illness (fear of an imaginary wolf); fear lest she should be burnt. Since then she has become quiet, and talks rationally and nothing indecent for the last two days.

Sachh. Lactis, & c

Fourteenth - Quite good and sensible

LM Potency

Eighteenth - The same, but severe headache; inclination to sleep by day, not so cheerful.

New Sulphur (new dynamization of the smallest material portion) one globule in three tumblers; in the morning one teaspoonful.

Twenty Second -Very well, very little headache

Sulphur, the next dynamization in two tumblers

She went on with the *Sulphur* occasionally until November, at which time she was and still remains a healthy, rational, amiable girl.

CASE - 2

O-t, an actor, 33 years old, married. 14th January 1843. For several years he had been frequently subject to sore throat, as also now for a month past. The previous sore throat had lasted six weeks. On swallowing his saliva a pricking sensation; feeling of contraction and excoriation

When he has not the sore throat he suffers from a pressure in anus, with violent excoriative pains, the anus is then inflamed, swollen and constricted; it is only with great

LM Potency

effort that he can then pass his faeces, when the swollen hemorrhoidal vessels protrude.

On the Fifteenth January, he took, in the morning before breakfast a teaspoonful of a solution of one globule of Belladonna X° then the lowest dynamization, dissolved in seven tablespoonfuls of water, of which a tablespoonful was well stirred up in a tumblerful of water.

Fifteenth — In the evening aggravation of the sore throat

Sixteenth - Sore throat gone, but the affection of the anus returned as above described; and open fissure with excoriative pain, inflammation, swelling, throbbing pain and constriction; also in the evening a painful motion.

He confessed having had a chancre eight years previously, which had been, as usual, destroyed by caustic, after which all the above affections had appeared.

Eighteenth - *Merc viv.* One globule of the lowest new dynamization 1, (which contains a vastly smaller amount of matter than the usual kind), prepared in the same manner, and to be taken in the same way as the *Belladonna* (the bottle being shaken each time), one spoonful in a tumblerful of water well stirred
