out. We need to build a culture where these things are acceptable. Don't say "he's ugly, he always has a runny nose." or things of this sort. If you keep telling off your child because he doesn't blow his nose, he will suck it in and swallow it because he doesn't want to be scolded. So where does the phlegm go? It goes into the child's stomach and messes it up. There are many other things that we need to be careful about.

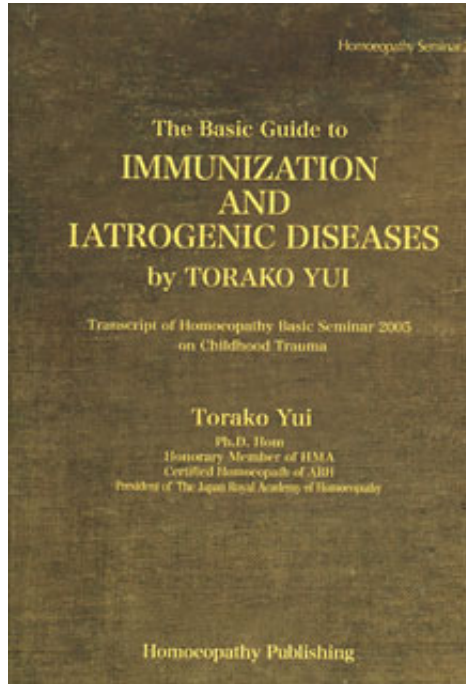

§ Specific homeopathic remedies that help remove toxins from your body

Vaccination is a toxin, so detoxing is also needed. Those remedies which work well in removing toxins from the body are; *Thuja, Nux vomica, Sulphur, Silica, Mercury, Almina, Formaldehyde, Kali-mur, Ant-tart, Arsenicum*. These are main remedies for detoxing. The mineral series of remedies is also good for detoxing. However, *Mercury* and *Silica* shouldn't be used in succession. You need to use a different remedy in between.

For your information, I often use the following remedies for treatment (of vaccination). Potentised vaccination remedies, potentised drugs, nosodes, *Graph., Alum., Sil, Merc-iod., Nit-ac, Aur-ars., Am-caust., Cad-brom., Syph, Med., Tub., ECG, Psor., Sulph, Hep....*

First, try it yourself, and if you are stuck or if you feel it's not working for you, then consult a professional homeopath. Especially if you are suffering from an aftereffect of vaccination, it is possible that your vital force is compromised in a complicated way as this leads to several miasms operating in your system, so you need to consult a homeopath to deal with all these miasms.

Well the time is now coming to an end, thank you everybody for coming today.
