## *Preface*

I have much pleasure in presenting the Eighteen edition of the reputed book **THE HOMOEOPATHIC FAMILY PRACTICE** which owes its origin to the great Bengali treatise **HOMOEOPATHIC PARIBARIK CHIKITSA**, published by **Messrs Birla Publications Pvt. Ltd.**

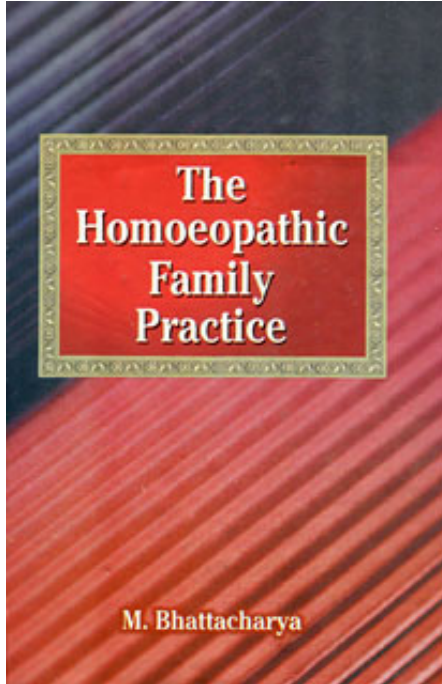

The **Anatomy and Physiology** portion of the book is an important and useful chapter, very helpful to medical students and all intelligent people. There are 35 diagrams which lucidly explain the detailed working of the human body. A student of Homoeopathy will be immensely benefited by this book.

The book deals with nearly all the ailments including those of women and children, that an average medical practitioner usually comes across. It will be of great help as a handy reference to a doctor or any educated person who has interest in Homoeopathy.

The fact that the 18th edition of the book has been so quickly exhausted proves its popularity and usefulness.

It is hoped that the book will receive favourable response at the hands of the medical men and public as before.

**AUTHOR**

M. Bhattacharya

[The Homoeopathic Family Practice](#)

With a preliminary Chapter on the  
Essentials of Anatomy and Physiology,  
Illustrated by 35 blocks

622 Seiten, geb.
