- a priori*** deduced; lit., 'from the previous causes/hypotheses'. Said of reasoning which proceeds from a known cause to a necessarily related effect.
- ab usu in morbus*** *from practice or use in customs'
- abaissement** lowering, falling, or bowing.
- abasia** an inability to walk even though muscular power, sensation, and coordination are unimpaired in relation to other movements of the legs.
- abattoir** slaughterhouse.
- abaxial** away from the line of the axis of the body or a body part.
- abduct** to draw away from the mid-line of the body or part.
- aberrant** deviating from the normal.
- abeyance** suspension; 'in abeyance', suspended or absent.
- abietite** a sugar found in the needles of *Abies pectinata* (the silver fir tree).
- abiosis** death.
- abirritant** a substance which eases or allays irritation.
- ablactation** weaning; the end of the suckling period.
- ablatio retinae** detachment of the retina.
- ablepharia** (congenital ablepharia) the absence of eyelids.
- abluent** detergent or soap; a cleansing or washing agent.
- ablepsia** blindness
- ablution** the process of cleansing the body.
- abrosia** a wasting away.
- abscess** a localized collection of pus in a cavity; a cavity or lump formed by the process of suppuration and disintegration of tissue.
- absinthism** the pathological state resulting from the excessive and habitual use of absinthe, characterized by neuritis, hyperesthesia, hallucinations, convulsions, acute mania, and even general paralysis.
- abstract** a preparation containing the soluble principles of a drug, evaporated and mixed with lactose.
- abulia** (aboulia) the loss or marked reduction in will power.
- abuse of mercury** the practice in the 1800s of giving large doses of mercurial purgatives to cause loose bowels in order to rid the patient of 'disease'. If repeated in large doses it can lead to a whole set of toxic symptoms, including headaches, gingivitis, nausea, dizziness, heart pain, dermatitis, excess salivation, epistaxis, keratitis, neuritis, hematological abnormalities, albuminuria, purpura, and a metallic taste in the mouth. See CALOMEL.

abyss a bottomless pit; hell. Any immeasurably profound depth or void.
