In unserer [Online-Buchhandlung](#) werden alle deutschen und englischen Homöopathie Bücher vorgestellt.

CONTENTS

Introduction.....	15
Part I. Dermatologic History Taking.....	17
Outline For — General Remarks On — Predominant Complaint — Proper Way in which to Elicit.	
Part II. Dermatologic Reasoning.....	19
Itching as a Predominant Complaint — Knowledge of Location — Knowledge of Duration — Knowledge of Various Lesions Necessary — Location of Various Lesions or Regional Dermatology — Skin Diseases to be Thought of in Infant Life — During Childhood — The Age of Adolescence — Middle Life and Old Age — History of Recurrent Attacks — Distribution of Lesions — Configuration — Syphilis — (to be so considered until proven otherwise).	
Part III. Dermatologic Routine of Examination.....	25
Observation — Light — Temperature of Examining Room — Completeness of Examination — Method of Procedure — General Color of Skin — Determination of Condition of Skin — Odor — Constitutional Disturbance — Consideration of Patient's Age — Temperament — Complexion — General Condition of Health — Digestive Tract — Genito-Urinary Tract — Bowels — Tongue and Buccal Mucous Membranes — Importance of Urinary Examination — Occupation — Ingestion of Various Drugs and Foods as Important Factors — Color of Lesions to be Noted — Use of Hand Magnifying Glass — Importance of the Microscope.	
Part IV. Dermatologic Symptomatology.....	29
Systemic or Constitutional Symptoms — Subjective Symptoms — Objective Symptoms — Primary Lesions	

10 Elementary Dermatology

— Macules — Papules — Tubercles — Tumors — Wheals
— Vesicles — Blebs — Pustules — Secondary Lesions
— Scales — Crusts — Excoriations — Fissures — Ulcers
— Scars — Pigmentations.

Part V. Dermatologic Descriptive Terms.....33

Acuminate — Plane — Punctate — Miliary — Guttate
— Lenticular — Nummularis — Patch — Discrete —
Herpetiform — Aggregated — Confluent — Localized —
Generalized — Universal — Disseminated —
Circumscribed — Circinate — Annular — Gyrate —
Serpigenous — Marginate — Symmetric —
Assymmetric — Uniform — Multiform.

Part VI. Classification of Skin Diseases.....35

Hebra's (Modified) — Hyperaemias — Inflammations —
Hemorrhages — Hypertrophies — Atrophies — New
Growths — Neuroses — Appendages of the Skin —
Parasitic Affections — Micro-organisms — Author's
Clinical Classification.

Part VII. Subjective Dermatology.....39

Itching Dermatoses (including possibly stinging,
smarting, tingling, crawling and burning sensations)
— Painful Dermatoses — Dermatoses Lacking
Sensation.

Part VIII. Durational Dermatology.....41

Short Duration skin Diseases (Several Days to a Few
Weeks) — Long Duration Skin Diseases (Few Weeks to
Months or Years).

Part IX. Lesional Dermatology.....43

Macular and Erythematous Skin Diseases —
Erythemato-Papular — Papular — Papulo-Squamous —
Nodular (Tubercular) — Tumors — Vesicular — Bullous
- Pustular - - Squamous - - Multiform Lesions '-

— Psoriasis — Purpura — Rosacea — Scabies —
 Seborrhoea — Steatoma-Sudamen — Sycosis Vulgaris
 — Syphilis Cutanea — Telangiectasis — Tinea Favosa
 — Tinea Trichophytina — Tinea Versicolor —
 Tuberculosis Cutis — Urticaria — Verruca — Vitiligo
 — Xanthoma.

Part XII. External Cutaneous Therapy.....191

Topical Applications vs. Potentized Remedies — Driving
 the Eruption in — (fallacy of) — Absorbility of the Skin
 — Soothing Applications as Protective Coverings —
 Assisting Potentized Remedies — Absorbility of various
 Ointment Bases — Cases Treated With and Without
 Topical Applications.

Part XIII. Local Therapeutic Agents (Description of)197

Detergents — Olive Oil and Salicylic Acid — Soothing
 Applications — (Boric Acid — Glycerine — Calamine)
 — Salicylic Acid — Resorcin — Sulphur — Ichthyol —
 Tar — Ammoniated Mercury — Antipruritics (Carbolic
 Acid and Menthol) — Astringents — (Bismuth
 Subnitrate and Bismuth Subgallate) — Parasiticides
 (Sodium Hyposulphite — Sulphur — Naphthol —
 Ammoniated Mercury) — Stimulants — (Tar — Comp.
 Tr. Green Soap — Sulphur — Naphthol — Ammoniated
 Mercury — Chrysarobin) — Keratolytics (Salicylic Acid
 — Liquor Potassae — Tr. Green Soap) — Keratoplasties
 (Ichthyol — Thyol — Sulphur — Tar — Resorcin —
 Chrysarobin) — Ointment Bases (Cold Cream — Lard
 — Lanoline — Vaseline) — Their Absorbibility (Cold
 Cream the Ideal).

**Part XIV. Determination of External Treatment to
 be Used.....203**

Author's Clinical Sub-division of Skin Diseases as a
 Factor in Determining — Acute Dermatoses (Non-
 micro-organic) — Acute Dermatoses (Micro-organic) —

Chronic Dermatoses (Either Micro-organic or Non-Micro-organic) Acute Non-Micro-organic (Skin Diseases to be Included under) — General Rule for External Treatment — Micro-organic (Skin Diseases to be Included Under, both Vegetable or Animal either Acute or Chronic) — Directions for the Use of Topical Substances — Their Application and Removal.

Part XV. Formulae for External Applications.....207

Calamine Lotion — Olive Oil Emulsion — Boric Acid Ointment — Boric Acid Dusting Powder — Ointments to Combat Micro-organisms — Sulphur and Resorcin Ointment — Lotio Alba (Comp. Zinc Sulphide Lotion) — Chrysarrobin in Traumaticin — Resorcin Hair Lotion — Caution with Reference to Use of Mercurial and Sulphur Preparations.

Part XVI. Internal Cutaneous Therapy.....211

Ability of Properly Selected Remedy — Laboratory and Research Workers of all Schools of Medicine Acclaiming the Truths of the Homoeopathic Law — Physiological Dosage (Allopathic) vs. Sub-Physiological Dosage (Homoeopathic) — Infinitesimal and Far Reaching Effects of Homoeopathic Remedies — Determination of Potency for Dermatologic Remedies — Frequency of Administration of — Why Best at Bed-time — Distilled Water as an Adjuvant.

Part XVII. List of Dermatologic Remedies with Indicated Potencies (Alphabetically Arranged).....215

Dermatological Remedies Described (Alphabetically Arranged) according to Lesions — Location — Sensations — Modalities — Associated Conditions — Indicated Diseases. Repertory.

Part XVIII. Dermatologic Remedies (Alphabetically Arranged).....217

Part XIX. **Repertory**.....301

Part XX. **Bacteriological Dermatology**.....315

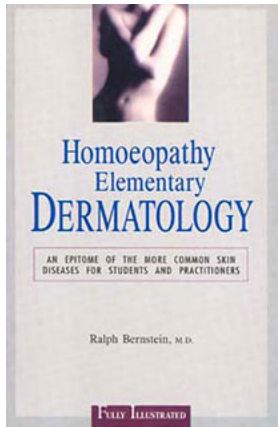

Routine for — Micro-organisms Contained in Vesicles and Bullae — Scales, Crusts and Skin Scrapings — Simple Staining Methods — Micro-organisms to Look for in Acne, Comedo, seborrhoea, Eczemz (Normal Inhabitant), Herpes Zoster, Impetigo Contagiosa, Purpura, Seborrhoea Oleosa, Dermatitis, Seborrhoeica, Syphilis, Blastomycetic Dermatitis, Erythrasma, Pityriasis Versicolor, Favus, Ringworm (Liquor Potassae Method).

Part XXI. **Special Dermatologic Procedures**.....323

Actinotherapy — Radiotherapy — Radium — High Frequency — Electro-dehydration — Thermoalbumenization — Opsonic Therapy — Refrigeration.

Part XXII. **Dermatologic Reminders** 333
