366. BELLADONNA

Anjoo — 3 years — came with ears red as blood. She would not let anybody touch the ear. *Belladonna* — 30 promptly relieved.

367. RHODODENDRON

Hargobind, 48 years, had mild pain in his testicle which aggravated when he sat down but vanished on walking.

Rhododendron — 200 one dose daily for 3 days relieved the pain.

368. BELLADONNA

Bholu — 1 year — was being given *Calcarea phos.* 6x to facilitate teething.

Sometimes when the child got fever which immediately shot up and convulsed, we prescribed *Belladonna* — 200.

High fever with convulsions during teething of a child calls for *Belladonna*.

369. NUX VOMICA

Rimtoo — 1 month — was suffering from diarrhoea for last one week, passing 10-20 stools a day. He had become very weak. *China* — 30 had failed to give any relief. He was being fed with mother's milk and with one or two feeds from bottle.

Bottle feed was totally stopped. Even then there was no relief. On checking up we found that the mother herself was suffering from dysentery for the last one week.

Nux vomica — 30 was prescribed for the mother and the child, and both were cured.

370. CHAMOMILLA

Sulekha — 28 years — had very severe headache. The apparent reason, according to her, was that she had been taking cold coffee for the last 4 days, but she was not used to it. *Chamomilla* — 30 was given to offset the bad effects of coffee. Sulekha was promptly relieved of headache.

371. SELENIUM

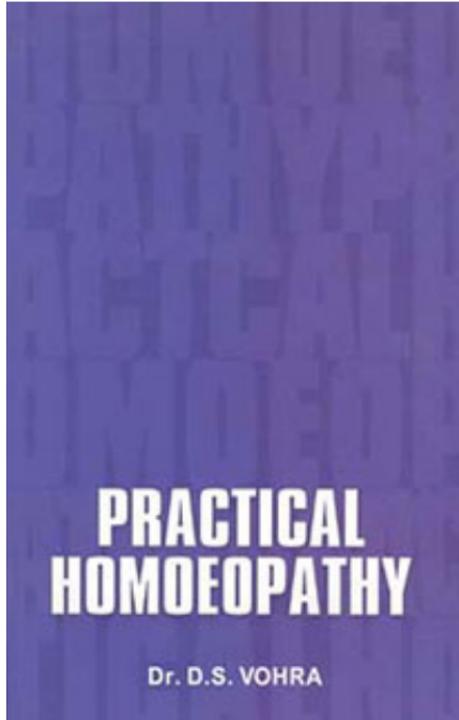

Satbir Singh — 18 years — had a few bald spots on his scalp. *Selenium* — 200 cured both his inveterate constipation and bald spots.

372. CHAMOMILLA

Renu — 1 year, had lost her appetite and had become very irritable and peevish. Cried sharply even with very little pain and was quieted only when carried. *Chamomilla* — 30 was prescribed.

373. CALCAREA FLUOR.

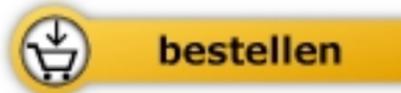

Mrs. Sharma — 50 years — had great pain in heel when walking. Even pain-killers could not give her much relief. X-ray showed exostosis of heel bone which got pressed against the flesh of the heel when the body weight came on the heel when standing. The doctor had advised use of shoes with a soft pad below the heel and operation to scrap the heel bone. *Calcarea fluor.* — 1M was prescribed once a week for 4 weeks. It removed the swelling of the heel bone without operation.
